

Welcome to the TWAIN Working Group Newsletter

Thin Scanning is all the rage these days! Read on to learn more about this technology offering and TWAIN Direct's role in its development, along with our ongoing ISV Showcase Webinar series, articles, podcasts and more...

All things Thin Scanning - here's more information

In this [edition](#) of Two Question Tuesday from Bryant Duhon, Editor of the Infsource Document Imaging Report, Kevin Neal, TWAIN Marketing Committee Chair explains what thin scanning is and how it can make your life easier and more productive.

Two Question Tuesday ...

Scanning Without Drivers Is Here to Save You Time (and MUCH More):
A Thin Scanning Primer

Kevin Neal
CEO
P3iD

And your host,
Bryant Duhon
Editor-in-Chief, DIR

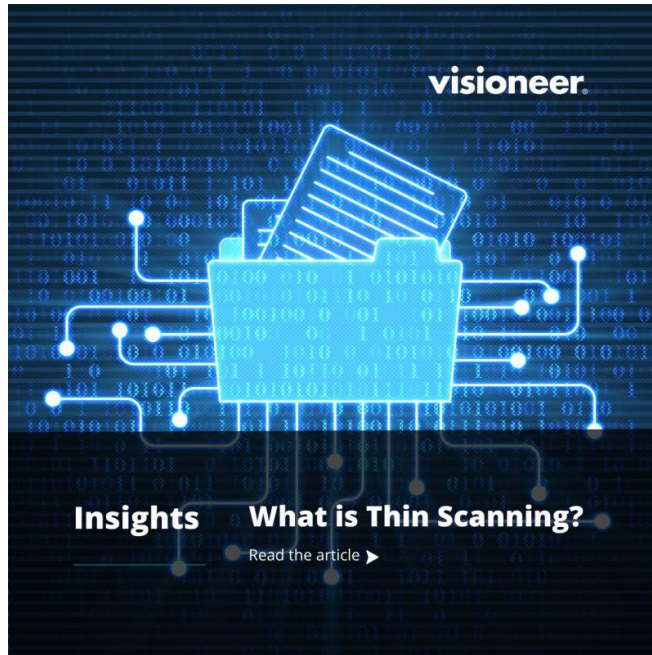

Document Imaging Report **infoSource**

TWAIN Working Group member companies [P3iD Technologies](#) and [Visioneer, Inc.](#) featured here in a [Keypoint Intelligence podcast](#) discussing the benefits of Thin Scanning featuring TWAIN Direct technology. During the lively discussion they define what it is, who does it, and who it can help, while outlining other key points of this growing technology.

This solution is available today - a cloud scanning application with zero software installation!

TWAIN Working Group member, [Visioneer Inc.](#) offers [insights](#) on "Thin Scanning" - how you can integrate a scanning solution with ZERO software installation in just minutes.

A Thin Scanning Update from TWAIN - [article](#) from Document Imaging Report

NOW is the time to sign up for Developers Day!

If you are an organization looking to evolve your capture strategy, TWAIN Direct Developers Day is a must-attend event.

Attendees will develop a fully functional, customized TWAIN Direct cloud scanning application **IN ONE DAY** with the direct support and supervision of TWAIN Direct experts.

November 8, 2023
Safety Harbor Resort and Spa

This Event is not to be missed!!
